5. Board of Education: Budget Update

Jill Browne reviewed the various areas of the Board of Education budget highlighting significant areas of the available budget at fiscal year-end. The General Control line item had an available budget of -\$18,430 at year-end mainly due to paper purchases, as the warehouse stock was depleted. Transportation ended the year with an available budget of \$589,760 due to COVID and school ending on March 13. The Benefits area of the budget ended in a deficit of -\$199,153 mainly due to severance payouts. Athletics and Student Activities had an available budget of \$379,829 due to sports and field trips being canceled and coaches not being paid their stipends. The Special Education budget is coming in under budget as the budget was funded on par with actual spending, transportation is within budget due to COVID, as students stayed home due to distance learning. Revenues totaled \$888,692 less than last fiscal year, and \$1.2 million less than what was expected for the budget. A \$1.77 million surplus is expected however, the current cafeteria deficit is approximately \$450,000, there are several expected challenges in fiscal year 2021 and it is being recommended to set aside the remaining surplus of this fiscal year.

Discussion was held on the amount which can be carried over as state statute was recently changed to increase the 1% carryover to 2%, Orlando questioned if this amount can be carried over for multiple years. Diane is going to look into this further as the state changed this statute just this past spring.

Chairman Smith questioned if COVID had not happened how would the Board of Education have ended the year. Jill Browne stated she can estimate, but knows the out of district transportation and substitutes would have ended in a deficit position, she will project and get back.
