

WEST CEMETERY - TREE EXISTING CONDITION SUMMARY

Tree Number	Type	Diameter (in Inches)	In Field Observation	Tree Photos	Tree Wardens - Initial Assessment
2	Japanese Maple	18	Two dominant stems, one is completely dead. Rot holes on dead stem in center of tree. Crown still showing color, low risk of damage if tree fell	West Street Cemetery Photos\2.jpg	Save / Keep
12	Japanese Maple	36	Large rot holes at the base, leafed out, low risk	West Street Cemetery Photos\12.jpg	Save / Keep
16	Sassafras	48	V crotch 10 feet up potential failure. DPW inspected with bucket truck no signs of failure/ rot.	West Street Cemetery Photos\16.jpg	Save / Keep (trim tree)
13	Maple	40	Large dead leader on north side	West Street Cemetery Photos\13.jpg	Save / Keep (trim tree)
5	Maple	30	Two dominant stems, one is completely dead. Rot holes on dead stem in center of tree	West Street Cemetery Photos\5.jpg	Save / Keep (trim tree)
7	Sassafras	28	Few rot holes, one at north side of base goes up 15in, second is 15 feet off the ground north side goes in about 8in. 3rd is approx. 12 feet up and 22in deep southeast side. Canopy is completely leafed out	West Street Cemetery Photos\6 & 7.jpg	Save / Keep (trim tree)
19	Maple	34	Small signs of rot on previous limb removals, large signs of bug infestation	West Street Cemetery Photos\19.jpg	Save / Keep (trim tree)
39	Maple	36	Rot holes on east side, large rot hole center stem west side, lose of canopy 20%	West Street Cemetery Photos\39.jpg	Save / Keep(trim tree)
35	Maple	48	4 dominant stems, large amounts of rot, mushrooms growing north side 10 ft. up, full canopy	West Street Cemetery Photos\35.jpg	Save / Keep (trim tree)
4	Maple	36	Large amount of dead wood, 3 dominant stem, weep marks on southeast side. One large dominant stem completely dead, close to roadway	West Street Cemetery Photos\4.jpg	Save / Keep (trim tree)
8	Oak	48	V crotch 7 feet up signs of potential failure. DPW inspected with bucket truck (no sign of rot/failure observed).	West Street Cemetery Photos\8.jpg	Save / Keep (trim tree)
14	Maple	32	Few rot holes, on previous trimmed limbs, mostly on higher limbs	West Street Cemetery Photos\14.jpg	Save / Keep (trim tree)
42	Maple	48	rot holes on west side and east side, small amounts of dead wood ,canopy 15%	West Street Cemetery Photos\42.jpg	Save / Keep (trim tree)
48	Maple	60	Weeping/ staining on east side, large amount of high dead wood, 25% canopy lose	West Street Cemetery Photos\48.jpg	Save / Keep (trim tree)

Tree Number	Type	Diameter (in Inches)	In Field Observation	Tree Photos	Tree Wardens - Initial Assessment
50	Oak	48	Two dominant stems, dead limbs high up	West Street Cemetery Photos\50.jpg	Save / Keep (trim tree)
52	Maple	40	Rot holes on east side, 15% loss of canopy	West Street Cemetery Photos\52.jpg	Save / Keep (trim tree)
45	Maple	36	Canopy die back 20%, rot holes on north side, center stem dead	West Street Cemetery Photos\45.jpg	Save (complete trimming of tree)
23	Locust	36	2 dominant stems, canopy die back	West Street Cemetery Photos\23.jpg	Save (trim tree)
24	Locust	38	Two dominant stems, large cracked leader south side, dead leaders on southwest side canopy 20% die back	West Street Cemetery Photos\24.jpg	Save (trim tree)
27	Bass wood	40	Dead leaders, some canopy die back, 10% canopy	West Street Cemetery Photos\27.jpg	Save (trim tree)
29	Locust	22	Weeping/staining at base, dead branches throughout, non primary	West Street Cemetery Photos\29.jpg	Save (trim tree)
31	Maple	36	Small amount of rot, some dead limbs no prominent leaders, leaning 18 degrees to east	West Street Cemetery Photos\31.jpg	Save (trim tree)
33	Maple	36	Rot holes on west side, lose of canopy 20%	West Street Cemetery Photos\33.jpg	Save (trim tree)
34	Maple	48	Posting removed Tree not subject of Hearing	West Street Cemetery Photos\34.jpg	Save (posting removed)
1	Maple	40	Three dominant stems. Limited rot shown from ground shows signs of dead limbs, Approx. 20% canopy die back	West Street Cemetery Photos\1.jpg	Remove
3	Maple	28	Rot hole approx. 12 ft. off ground on South side. Canopy die back. Rot cavity 24x17 goes up about 52in. Tree along road way	West Street Cemetery Photos\3.jpg	Remove
6	Sassafras	24	Rotted at base northwest side, high risk of whole tree falling	West Street Cemetery Photos\6 & 7.jpg	Remove
9	Oak	50	Large amount of rot throughout the whole tree	West Street Cemetery Photos\9.jpg	Remove
10	Maple	50	Two dominant stems, large limb fell during last storm on east side, 1/4 of canopy missing with limb broken off. Leafed out Rot hole	West Street Cemetery Photos\10.jpg	Remove
11	Ash	40	Large rot hole in center of tree, can see though base of tree due to rot	West Street Cemetery Photos\11.jpg	Remove

Tree Number	Type	Diameter (in Inches)	In Field Observation	Tree Photos	Tree Wardens - Initial Assessment
15	Maple	36	Few rot holes	West Street Cemetery Photos\15.jpg	Remove
17	Maple	36	Signs of rot on previous limb removals. Approx. 15 percent canopy die back.	West Street Cemetery Photos\17.jpg	Remove
18	Maple	60	Good amount of canopy is dying back, small shallow rot holes, missing bark at the base east side with signs of repair from a crack, a lot of low sucker growth	West Street Cemetery Photos\18.jpg	Remove
20	Maple	48	Rot hole from limb removed, v crotch rotting out, 40% of canopy good,	West Street Cemetery Photos\20.jpg	Remove
21	Oak	60	Large crack on east side, a lot of sucker growth, severely damaged	West Street Cemetery Photos\21.jpg	Remove
22	Pine	36	Large amount of dead limbs, not much green, 20% canopy die back, limited grout on north east side	West Street Cemetery Photos\22.jpg	Remove
25	Locust	36	3 dominate stems, one rotting off, canopy 25% good	West Street Cemetery Photos\25.jpg	Remove
26	Oak	48	Rot at base east side and south side, canopy good, small rot holes	West Street Cemetery Photos\26.jpg	Remove
28	Bass wood	36	Dead leaders, some canopy die back, 10% canopy	West Street Cemetery Photos\28A.jpg	Remove
				West Street Cemetery Photos\28.jpg	
30	Locust	32	Two dominate stems, crown 50% dead on north side	West Street Cemetery Photos\30.jpg	Remove
32	Maple	28	Severe decay, primary stems northwest, primary trunk hangs over roadway	West Street Cemetery Photos\32.jpg	Remove
36	Maple	48	Many dominate stems, large die off in center of canopy	West Street Cemetery Photos\36.jpg	Remove
37	Maple	40	Large cracked stem northeast side, large amounts of dead wood, rot from previous trimming, large dead stem on south side, overhanging roadway	West Street Cemetery Photos\37.jpg	Remove
38	Beach	48	Rot in limbs on north side, large leader came down in last storm north side, 2 large dead leaders north side and middle, dead limb over roadway	West Street Cemetery Photos\38.jpg	Remove
40	Maple	36	Center stem die back, stem die back west side	West Street Cemetery Photos\40.jpg	Remove

Tree Number	Type	Diameter (in Inches)	In Field Observation	Tree Photos	Tree Wardens - Initial Assessment
41	Maple	36	Weeping/ staining on east side, large amount of dead wood, limb came down last storm	West Street Cemetery Photos\41.jpg	Remove
43	Maple	48	Canopy die back, rot holes on north side, damaged branch over roadway	West Street Cemetery Photos\43.jpg	Remove
44	Maple	48	Large portion of tree dead	West Street Cemetery Photos\44.jpg	Remove
46	Cyprus	24	3/4 dead, low risk	West Street Cemetery Photos\46.jpg	Remove
47	Cyprus	12	Top half dead	West Street Cemetery Photos\47.jpg	Remove
49	Maple	36	Two dominant stems, large dead stem on east side	West Street Cemetery Photos\49.jpg	Remove
51	Oak	48	Large limb came down in last storm, peeling bark, primary branch broken, signs of stress on remaining stems, tree will fall outside cemetery limits into residential housing	West Street Cemetery Photos\51.jpg	Remove

Notes:

1. Tree Warden-Initial Assessment: "Save/Keep" indicates the tree shall remain and is NOT authorized for removal. "Remove" indicates the tree IS authorized to be removed.
2. Tree Warden – Initial Assessment is the current/ preliminary tree assessment of the City's Tree Warden. The purpose of the public hearing is to obtain information to determine if trees will in fact be authorized for removal, therefore initial assessment is PRELIMINARY ONLY and is subject to change based on information provided at the hearing.
3. Tree Warden- Initial Assessment Revised 9/30/2020: Tree # 13 & #35 indicated in initial Assessment as "Save/Keep (Trim Tree) Recommend planting tree to replace existing Tree" Has been Deleted.
4. Reformated 9/30/2020 to sort by Tree Warden Initial Assessment "Remove/Save Keep"
